# CONTENTS

## Road Engineering

Numerical Analysis of Influence of Differential Subgrade Settlement on Pavement Structure .....	Zhang Zhongyun	1
Optimization Design of Cold Recycling Foamed Asphalt Based on Grey Relational Analysis.....	Ji Zenghui, Yu Wei	4
Research on Regeneration Performance of Old Asphalt in Warm-mix Recycled Asphalt Concrete .....	Yu Yahui, Ding Zemin, Yu Hui	8
Study on the Shrinkage Properties of Cement Stabilized Macadam with Rubber Powder .....	Zhang Xiangfei, Qian Zhendong Yang Ruchong	13

Influence and Erosion Mechanism of Salty and Humidity Environment on Asphalt Mixture .....	Li Hua	17
Application of Vibratory Compaction in Cement and Fly-ash Stabilized Macadam Base .....		

..... Zhang Keqiang Wei Wuju, Han Chao Zhao Zhiqiang	21	
Application of Resonant Rubblizing Technology in Yiyang to Changde Expressway Engineering .....	Gui Qizhi, Zeng Hui	24
Effect of Steel Wheel Compaction Process on SMA Asphalt Pavement Quality .....	Bian Jiaqian	28
System Thinking for Urban Expressway Design .....	Yang Zaifu	32

## Bridge & Tunnel Engineering

Study of Calculation and Experiment for Shear Stiffness of Angle Steel Connector .....	Deng Wenjin, Zhang Jiandong Liu Duo, Hu Jun	35
Stress Influence Analysis for Batten Plate of Dumbbell Shaped Concrete Filled Steel Tube Arch Bridge .....	Tang Peng Gong Sai	39
Mechanial Analysis on Prestressed Concrete Framework Pier with Long Span .....	Zheng Jiyan, Shan Hongwei, Cao Weixing, Hu Yang	42
Determination of Reasonable Finished Hanger Force of Tied Arch Bridge Based on the Influence Matrix Method .....	Xing Yu Miao Yonghui	45

Application of Finite Element Interpolation Technology in Cable Force Measurement Based on Frequency Method .....	Li Xin, Deng Lingyu, Song Yifan	48
-------------------------------------------------------------------------------------------------------------------	---------------------------------	----

Research on the Whole-process Monitoring of Construction of a Long Box Culvert Under-crossing Wutong Railway .....	Wang Feiqiu	51
Effect Analysis of Soft Soil Settlement on Abutment Pile Foundation .....	Ma Guanglin, Jiang Fa, Ma Xuejun, Yan Chen	57
Research and Treatments on Pile Foundation Diviation of a Port Bridge .....	Huang Haisong Ma Li, Miao Mengxi	61
Research on Key Parameters of Treatment Technology for Bridge and Tunnel Concrete Deck .....	Gong Chengjin, Zhou Jianliang Wang Jun, Bao Zhongcheng	64

Application of Environmental-Friendly Waterproof Binding Technlogy in Bridge and Tunnel Engineering .....	Zhu Jiaxiang, Bian Yuanyuan, Li Yuandong Lv Ru'nan	68
Calculation and Design of a Underpass Box Based on Spatial Grid Method .....	Zhang Jianjun, Su Xiaonan, Yang Yang	71

Research on Treatment of Highway Tunnel Argillaceous Roof Collaspe .....	Han Guangjin, Tian Hongyue, Mao Jinlong	76
Communication Engineering		

Analysis of Travel Mode Choice Behavior of Urban Residents Based on Generalized Cost .....	He Suzhen	79
--------------------------------------------------------------------------------------------	-----------	----

## Port & Navigation Engineering

Study on Vessel Traffic Flow Dynamic Model of Inland Waterways .....	Bao Yehui, Yang Haifei	84
----------------------------------------------------------------------	------------------------	----

## Mandgement

Research on Safety Standardized Construction for Arterial Highway Maintenance Companies .....	Chen Ming	87
-----------------------------------------------------------------------------------------------	-----------	----
