

CONTENTS

Road Engineering

Comparison Research of America and French Gyrotory Compaction Method Effect on the Durable High Modulus Asphalt Mixture

..... Li Xiaoyan, Han Chao, An Fengwei, Li Hao, Jia Yu (1)

Stability Analysis and Compute for Bedding Plate in Subgrade

Study on the Application of Reinforced Concrete Transformation Method in Road Bridge Reinforcement

A Comparative Analysis of Reinforcement Effect of Three Soft Foundation Treatment Methods

Bridge & Tunnel Engineering

A Method on Temporary Displacement Estimation of Concrete Box Girder by Theory of Temperature Field

..... Cheng Shuguang, Cheng Ye, Pan Danguang (16)

Research on the Effect of Temperature Field on the Displacement of Concrete Box Girder

..... Tang Shuangling, Qian Jie, Wang Jie, Liu Jie, Liu Jie, Liu Jie (21)

Influence of Temperature Field on the Displacement of Concrete Box Girder

Research on the Effect of Temperature Field on the Displacement of Concrete Box Girder

..... Tang Shuangling, Qian Jie, Wang Jie, Liu Jie, Liu Jie, Liu Jie (21)

..... She Xunke, Xu YiChao (39)

Demolition and Replacement Technology of Expansion Joints for Highway

..... Wang Feng, Liu Duo, Jiang Liusheng, Man Xiaowei, Zhang Jiandong (43)

The Analysis and Research for the Bridge Diseases of Box Girder's Lateral Displacement, the Case Study of An S-Formed Continuous Curved Box Girder Bridge

Study of the Rehabilitation of Steel Pipe Concrete Green Tunnel

The Selection Research of the Grouped Muck Truck Equipment in Earth Pressure Shield

Communication Engineering

Traffic Flow Prediction Based on GA-BP network

Planning for Urban Slow Traffic System under the Situation of Multiple Planning Fusion

Study on The Influence Scope of Nanjing Comprehensive Passenger Transport Hubs Based on LBS Big Data

Study on Traffic Capacity Improvement of Urban Intersections

Transportation Economy & Logistics

Efficiency Evaluation of Port Container Transport by Rail and Sea Based on DEAHP

Rail Transportation

Hazard Identification and Risk Assessment of Modern Trams Safe Running

Research on Ventilation Scheme of Substation in Elevated Metro Station

Maintenance Engineering

Durable Type Sand Fog Seal Technology Application Research in Jiangsu Province Arterial Highway

The Staff Staff of Expressway Maintenance District Based on the Analysis of the Assignment Management

Application of Information Technology in Airport Operation and Maintenance Management

Study on The Influence Scope of Nanjing Comprehensive Passenger Transport Hubs Based on LBS Big Data
