

CONTENTS

Road Engineering

Study on Effect of Sample Preparation Methods on Indoor Silt Compression Test

ZHOU Ruirong, ZONG Mingming, WANG Qiaoyun (1)

Study on Water Damage of Xinjiang G30 Guozigou Expressway

LING Xinpeng, YE Wei (6)

Research on Hard Asphalt Stabilized Macadam Mixture Design and Performance Test Used for Grass-roots

SONG Qinghong, NING Aimin, JIANG Hong, WANG Yongwei, LV Shen, WANG Renhui (12)

Analysis in Road Performance of Activated Mineral Binder Stabilizer in SMA Asphalt Mixture

DING Bin, JIANG Longsong (17)

Program Design for Highway Reconstruction and Expansion Based on Current Situation

—Set the Reconstruction for Dahuang Mountain to Urumqi Section of the Highway G7 from Beijing to Xinjiang As an Example

YAN Lei (20)

Bridge & Tunnel Engineering

Extraction Method and Precision Analysis of Bridge Displacement Influence Line

XU Jian (26)

Model Test Study on Deformation and Mechanical Behavior of the Middle Wall in an Extremely Shallow Double-Arch Tunnel

YUAN Shucheng (31)

Current Status and Prospects of Highway Tunnel Traffic Safety Research

WANG Jian, PAN Fuquan, ZHANG Lixia, YANG Jinshun, WANG Zheng, XING Ying (36)

Spatial Effect Analysis of Ultra Wide Box Girder with Transverse Less Restraint System

YANG Shungang (41)

Communications Engineering

The Application of Classical Sinology in Transportation

HUANG Jun (46)

Modeling and Analysis of Mixed Traffic Flow Based on Driver's Behavior Choice at Intersection

Li Yunxuan, JIA Xingwu (50)

Type Selection of Freeway Exit Ramps Based on Crash Prediction

XIA Xue, GUO Tangyi, PAN Shu (56)

Safety Engineering Design for Combinatorial Safety Hazard of Rural Road Section

WANG Pengcheng, WU Yahui, QIU Xiaodong, TANG Tianpei (61)

Research on Dispersed Traffic Organization Method of Multi-Intersection

PENG Qingyan (67)

The Design and Research of Pervious Electronic Sign

YE Meitao, GAO Feng (74)

Port & Navigation Engineering

Analysis and Prediction of Traffic Characteristics of Inland Waterway

MIAO Yan, JIANG Dazhi (78)

Analysis of Seepage Characteristic of the Middle-high Head Ship Lock

—Taking Fuchunjiang Ship Lock as an Example

FAN Pengju, SUN Zhenfeng, ZHENG Keya, QIAN Cheng, QI Hui (82)

Application of Polypropylene Fiber Mortar in Crack Repair of Ship Lock Chamber Wall

SONG Duanxiang (86)

Application of BIM Technology in Ship Lock Quality Management

LI Shanchao, YANG Sen (90)
