

CONTENTS

Experimental Study on Waterproofing Effect of In-situ Nano-SiO ₂ Protective Agent	XIA Peizhai, HAN Lebing, LI Tao, GAO Ying, GE Zhi (1)
Summary on Review of Expressway Maintenance Engineering Construction Safety Technology Rules	WU Zanping, JIN Mingxin (7)
Study on the Effect of the Mineral Powder on the Performance of Asphalt Mortar	NI Wei (12)
Development and Performance Evaluation of Asphalt Mixture Additives Based on Industrial Wastes	ZHOU Jianhua, ZHANG Shiyan, LIU Shengtao, WU Dongsheng, WANG Wenfeng, HU Yang (16)
The First Application of Rubber Asphalt in Hainan	WANG Lei (22)
Accurate Exploration of Karst Geology Based on the Land Sonar Method	ZHANG Lei, ZHANG Guangsheng, PHAM ThiNhan, ZHONG Shihang (28)
Analysis of Cable Force in Construction of Extradosed Concrete Cable-stayed Bridge	CHEN Jinbo, SUN Wen, LI Bowen, MIAO Changqing (33)
Construction Mechanics Characteristics and Arch Replacement Technology of Shallow Buried Tunnel in Saturated Rock Mass	HU Jian, CAI Jian, GENG Jianyi, YANG Xin'an (37)
Development of Crack Monitoring and Detection Technologies of Concrete Bridges	ZHANG Hongjian, KONG Yan, ZHAO Qilin, FAN Yuxin, LI Jincheng (42)
Deflection Prediction of Long-span Cantilever Constructed Continuous Girder Bridge Based on Model Tree Algorithm	WANG Peijin (49)
Research on Dynamic Characteristics of Egongyan Bridge	DUAN Li, LI Yuansong, GONG Guofeng, PEI Ye (54)
Study on Characteristics of Complex Network and Robustness of Current Road Traffic Network in Dongguan	TAN Jinhui (59)
Research on Local Traffic Connection for Reconstruction and Expansion Project of Crosstown Expressway	SUN Jiajun, YANG Yongqiang, XU Fengjun (63)
Study on the Relationship Between Gross Domestic Product (GDP) and Traffic Volume of Suzhou	MAO Xin, ZHU Congkun (68)
Sustainable Development Strategy of Ring-radial Road Network in Infill Development Stage	LIU Kai, GONG Xingxing (72)
Research on Monitoring Method of Snow Drifting Disaster in Railway Engineering	LI Bo (77)
Design of Wheelset for New Type Gauge Changeable EMU	LIU Xiaoyan, HUANG Yunhua, WANG Yutao, HU Xin (84)
Force Analysis of Modern Tram Track Structure	WANG Min (89)
